7th–12th Grade School Health Information for Parents

2026–2027 School Year

Welcome to the Secondary Program at Calvary Christian Academy. The school nurse is committed to promoting student health, safety, and wellness while supporting students' academic success and participation in school activities.

Parents/guardians are asked to provide updated health information at the beginning of each school year and whenever there are changes to their student's medical status.

Health information that may be required includes:

- Student Health Update information
- Current immunization records
- Medication Administration Authorization forms
- Asthma, Allergy, Seizure, Diabetes, or other healthcare provider care plans (if applicable)
- Emergency contact information

Medication Drop-Off Information

If your student requires medication during the school day:

- Prescription medications must be in the original pharmacy-labeled container.
- Over-the-counter medications must be in the original manufacturer packaging.
- Required authorization forms and provider orders (when applicable) must be completed before medication may be administered.
- Medications and emergency supplies must not be expired.

Campus 2 Medication Procedures (Grades 7–12)

Grades 7–8

- Students may NOT transport medications to school.
- All medications must be delivered directly by a parent/guardian to the school nurse.

Grades 9–12

Students may transport NON-controlled medications ONLY if:

- Parent/guardian provides prior email notification to the school nurse
- Medication is in the original labeled container
- Required medication paperwork accompanies the medication
- Medication is immediately surrendered to the school nurse upon arrival

Students may NOT:

- Carry medications throughout the school day
- Store medications in lockers or backpacks
- Share medications with other students

Controlled Medications

Controlled substances (including ADHD medications) require strict handling procedures.

- Students may NEVER transport controlled substances.
- Controlled medications must be hand-delivered directly to the school nurse by a parent/guardian.

Self-Carry Emergency Medications

Students may be permitted to carry and self-administer approved emergency medications, including:

- Rescue inhalers
- Epinephrine auto-injectors (EpiPens)
- Diabetic supplies
- Other approved emergency medications

Self-carry requires:

- Healthcare provider authorization
- Parent/guardian consent
- School nurse approval

Please Notify the School Nurse If:

- A medical condition changes
- Medications or treatment plans change
- The student experiences hospitalization or emergency treatment
- Emergency contact information changes
- The student experiences a concussion, injury, or significant illness affecting school participation

Students participating in athletics may also be required to submit additional health or sports participation documentation prior to participation.

Please contact the school nurse with any questions regarding medications, medical conditions, immunizations, or student health requirements.
