Medical Conditions & Specialized Health Care Information

Calvary Christian Academy is committed to supporting students with ongoing medical conditions so they may safely participate in school and school-sponsored activities.

Parents/guardians of students with chronic or specialized health conditions are encouraged to notify the school nurse prior to the start of each school year or whenever a new diagnosis or medical concern arises.

Examples of medical conditions that may require school health planning include, but are not limited to:

- Seizure disorders
- Diabetes
- Cardiac conditions
- Severe migraines
- Gastrointestinal disorders
- Bleeding disorders
- Adrenal conditions
- Mobility or orthopedic conditions
- Other chronic medical concerns requiring monitoring, medication, emergency response, or accommodations during the school day

To help provide safe care at school, parents/guardians may be asked to submit:

- Current medical provider orders or treatment plans
- Emergency care plans or specialist instructions
- Medication Administration Authorization forms
- Required medications, supplies, or medical equipment
- Updated emergency contact information

The school accepts healthcare provider-developed care plans, including Seizure Action Plans, Diabetes Medical Management Plans (DMMP), and other specialist treatment plans.

Please provide all medications, supplies, and equipment in properly labeled containers and ensure that all items are current and not expired.

Parents/guardians should notify the school nurse if:

- A medical condition changes
- Medications or treatments are adjusted
- The student experiences hospitalization or emergency treatment
- New medical equipment or procedures are required at school
- Emergency contact information changes

The school nurse works collaboratively with families, healthcare providers, teachers, and staff to support student health and safety during the school day.

For questions regarding medical conditions, medications, or required documentation, please contact the school nurse.
